Market Outlook

THE WEEK THAT WAS

Key indices register weekly gains

Key benchmarks clocked modest gains last week as the exit polls predicted a clear victory for the ruling Bharatiya Janata Party (BJP) in the assembly elections for Gujarat and Himachal Pradesh. Investors digested the US Federal Reserve's decision of raising interest rates for the third time this year, underlining the confidence that the United States remains on solid footing. The Sensex and the Nifty, both, advanced in three out of five trading sessions. The broader market, however, witnessed selling pressure.

IndusInd Bank and Yes Bank will be included in the S&P BSE Sensex, while Cipla and Lupin will be excluded from the benchmark index. The changes are effective at the open of Monday, 18 December 2017.

On the macro front, India's inflation based on the wholesale price index (WPI), stood at 3.93% for the month of November 2017 as compared to 3.59% for the previous month and 1.82% during the corresponding month of the previous year. The inflation data was released by the government during market hours on Thursday, 14 December 2017.

The all-India general inflation based on the consumer price index (CPI) surged to 4.88% in November 2017, compared with 3.58% in October 2017. The core CPI inflation increased to 4.69% in November 2017 compared with 4.4% in October 2017. The inflation data was released by the government after market hours on Tuesday, 12 December 2017.

India's industrial production rose at moderated pace of 2.2% in October 2017 over October 2016, while showing a deceleration in growth from 4.1% increase in September 2017, data released by the government after market hours on Tuesday, 12 December 2017 showed.

On the political front, in a boost to Narendra Modi led NDA government at the centre, a host of exit polls predicted a clear victory for the BJP in the recently concluded assembly elections for Gujarat and Himachal Pradesh. Exit polls predicted that the BJP will retain Gujarat while wresting power from the Congress in Himachal Pradesh.

Poll in Himachal Pradesh took place in single phase on 9 November 2017, while in Gujarat, poll was scheduled in two phases on 9 and 14 December 2017. Results of both the states will be announced on Monday, 18 December 2017.

The winter session of the Parliament began on Friday, 15 December 2017. Disruptions marred the first day of the winter session of the Rajya Sabha today as a determined opposition stalled proceedings protesting the disqualification of former Janata Dal (United) or JD(U) chief Sharad Yadav and another MP of the same party and certain recent remarks of the Prime Minister.

This session will have a total of 14 working days. The session concludes on 5 January 2018. The government has a slew of important Bills on its agenda in this session. The Financial Resolution and Deposit Insurance Bill, 2017 is slated to come up in this session of Parliament. This Bill aims to limit the impact of the failure of financial institutions like banks and NBFCs. It has also been cleared by the standing committee.

Meanwhile, the provisional figures of direct tax collections up to November 2017 showed that net collections are at Rs 4.8 lakh crore which is 14.4% higher than the net collections for the corresponding period of last year. The net direct tax collections represent 49% of the total Budget Estimates of direct taxes for the FY 2018, according to the data released by the government on Sunday, 10 December 2017.

On the global front, the US Federal Reserve raised interest rates by a quarter point after the conclusion of its two-day policy meeting on Wednesday, 13 December 2017, in a move that was widely expected by markets. That increased the central bank's target range to between 1.25% and 1.5%. The Fed also raised its GDP forecast from 2.1% to 2.5%. Its inflation forecast was raised from 1.6% to 1.7%.

Meanwhile, the European Central Bank (ECB) hiked its growth forecasts, but admitted that inflation still will not be on target by 2020. In its final meeting of 2017 held on Thursday, 14 December 2017, the eurozone's central bank voted to leave interest rates on hold - and repeated its commitment to running an asset-purchase stimulus programme until at least next September.

WEEK AHEAD

Global cues will be watched

Traders will focus on the trend in global markets, investment by foreign portfolio investors (FPIs) and domestic institutional investors (DIIs) next week.

Crude oil prices will be keenly tracked as oil prices have firmed up recently. India imports majority of its crude requirements and a rise in crude oil prices increases concerns on fiscal deficit, inflation and gives lesser room for the government to boost growth through spending on infrastructure. Meanwhile, a weak rupee raises the cost of importing crude oil.

IndusInd Bank and Yes Bank will be included in the S&P BSE Sensex, while Cipla and Lupin will be excluded from the benchmark index. The changes are effective at the open of Monday, 18 December 2017.

On the political front, marketmen will keenly track the outcome of the recently concluded assembly elections in Himachal Pradesh and Gujarat. Poll in Himachal Pradesh took place in single phase on 9 November 2017, while in Gujarat, poll was scheduled in two phases on 9 and 14 December 2017. Results of both the states will be announced on Monday, 18 December 2017.

Meanwhile, the winter session of the Parliament began on Friday, 15 December 2017. This session will have a total of 14 working days. The session concludes on 5 January 2018. The government has a slew of important Bills on its agenda in this session. The Financial Resolution and Deposit Insurance Bill, 2017 is slated to come up in this session of Parliament. This Bill aims to limit the impact of the failure of financial institutions like banks and NBFCs. It has also been cleared by the standing committee.

On the global front, Eurozone consumer price index (CPI) data for November will be unveiled on Monday, 18 December 2017.

US existing home sales data for November will be unveiled on Wednesday, 20 December 2017.

US crude oil inventories data will be unveiled on Wednesday, 20 December 2017.

Bank of Japan (BoJ) monetary policy statement will be unveiled on Wednesday, 20 December 2017.

US Q3 gross domestic product (GDP) data will be unveiled on Thursday, 21 December 2017.

UK Q3 GDP data will be unveiled on Friday, 22 December 2017.

US new home sales data will be unveiled on Friday, 22 December 2017.
